

Gloots Face & Body Therapies Treatment Price List 2017

Facial Skin Treatments:

Target your most pressing skin concerns and improve the health of your skin with a professional face treatment. Through your Face Mapping® zone-by-zone skin analysis, we'll create a treatment that's customised to meet the needs of your skin, and using Dermalogica® professional products, we'll deliver healthier skin with a fresh appearance.

Dermalogica® MediBac

Clearing Facial Treatment for Adult Acne.

A new prescription facial incorporating the MediBac twenty-four hour treatment system formulated specifically with state-of-the-art ingredient technology to treat, clear and prevent adult acne. Each product, with its unique acne-fighting and clearing ingredients, is designed to be layered onto the skin to provide around the clock, maximum control of the factors that contribute to acne: overactive sebaceous glands (the production of too much oil), dead skin cell accumulation, bacteria and inflammation.

Why is mediBac clearing more effective at treating adult acne?

Most products and treatments for acne are designed for teenage skin, making them too harsh and irritating for adult acne sufferers. The aggressive acne treatments created for teenage skin (which is more resilient) can cause adverse reactions on older skin, including flaking, peeling, excessive dryness and even additional breakouts.
